

Transparency Statement for Virtual Teacher & AI Assistants

Overview

At Virtual Teacher, we are committed to fostering a transparent, ethical, and responsible approach to the development and deployment of artificial intelligence (AI) technologies. As AI continues to play a crucial role in our educational services, we align our practices with the latest policies and regulations, including the Australian Federal Government's new "AI in Government Policy," which comes into effect on September 1st, 2024.

AI in Our Services

Virtual Teacher integrates AI across several platforms to enhance the learning experience for students and streamline educational processes for educators. These platforms include:

1. **Super Task** - Our AI-driven educational assistant available at [Super Voice](#).
2. **VT AI Prompter** - A sophisticated tool designed to assist educators in creating effective prompts and managing classroom activities, accessible at [Virtual Teacher](#).
3. **Learning about and with AI for both Teachers & Students** **Learning about AI is essential** for digital literacy, critical thinking skills, and preparing students for the future. A basic understanding of AI will enable students to engage & create with AI safely, responsibly and ethically.

Ethical AI Use

We are committed to ensuring that our AI systems are used responsibly and ethically. Our AI is designed to support educators and students by providing personalized learning experiences, enhancing engagement, and promoting understanding. We prioritize the safety, privacy, and security of our users, ensuring that our AI tools operate transparently and align with the best practices in the industry.

AI Governance and Oversight

In compliance with the Australian Federal Government's "AI in Government Policy," Virtual Teacher oversees AI Ethics & all AI-related activities. Our AI tools are developed and used in a manner consistent with ethical guidelines, and they will regularly review our AI practices to ensure continued alignment with emerging standards.

AI Governance and Oversight

In compliance with the Australian Federal Government's "AI in Government Policy," Virtual Teacher oversees AI Ethics & all AI-related activities. Our AI tools are developed and used in a manner consistent with ethical guidelines, and they will regularly review our AI practices to ensure continued alignment with emerging standards.

Commitment to Transparency

Our transparency statement is a testament to our commitment to open communication with our users. We aim to clearly articulate how our AI technologies are integrated into our services, the data they process, and the measures we take to safeguard user privacy and data security. This statement will be regularly updated to reflect any changes in our AI practices or relevant regulations.

Future Developments

As the AI landscape evolves, we remain committed to adapting our practices to meet new challenges and opportunities. We are closely monitoring the implications of the Federal Government's new policy and are prepared to implement any additional measures required to ensure compliance and maintain the trust of our users.

This transparency statement will be formally published and made accessible to all users, in accordance with the new policy requirements.
